Product Specification Sheet

Desktop 7 Port 2.0 USB Hub with audio pass - through

Part #: ACH81EU

Product Description:

This Targus seven port USB Hub enables your notebook computer to gain easy plug and play connections to multiple input/output USB devices. The hub features seven USB 2.0 ports, packaged in an attractive enclosure which can be placed vertically or horizontally. It is ideal for your desktop set-up, allowing for easy connection of seven low speed or high speed USB devices to your USB enabled computer. Advanced functionality truly sets this hub apart, such as the Audio pass-through ports (connect your headset and Microphone to the hub directly) adapter friendly spacing of ports, 'always on' capability and finally High power ports (Connect up to two High power devices such as external Hard drives and DVD writers) ensure this hub will continue to meet your needs for years to come.

Product Features and Specifications:

- This is a Targus global product
- Expand your system - with up to seven USB 2.0 devices
- Audio pass-through ports – connect your headset and microphone to the hub directly without having to reach behind your computer
